EXPERIENCE & SELECTED PROJECTS

NexaGrind AI | **Founder & Developer • 2026–Present**
Founded and independently developed an AI-powered digital platform focused on practical problem solving, decision support, productivity, business tools, and AI-assisted workflows. Responsible for product ideation, development, UI/UX, feature planning, testing, and overall product direction.

ToolsOverflow | **Lead Developer • 2026–Present**
Contributing to a multi-domain web tools platform covering YouTube utilities, SEO, content creation, calculators, converters, developer utilities, and productivity-focused tools. Involved in system development, feature implementation, testing, optimization, and technical problem solving.

SEEMA Chat Bot | **Founder & Developer • 2026–Present**
Founded and developed a Discord-based platform providing automation and community-focused features. Responsible for development, feature planning, system management, testing, and continuous improvement.

HylexMC / FakePixel | **Lead Developer • 2026–Present**
Contributed across Minecraft server development, custom plugins, backend systems, gameplay mechanics, configurations, optimization, anti-cheat systems, and web/store integrations.

Game Modding & Custom Development | **Game Developer & Mod Developer • 2025–Present**
Independent work across game development, modding, plugins, gameplay systems, server-side features, specialized tools, Minecraft development, configuration, optimization, and technical problem solving.

Secure Anti-Cheat Examination System | **Founder & Developer • 2026–Present**
Building a secure online examination platform focused on exam integrity, candidate authentication, session monitoring, suspicious-activity detection, integrity checks, and examination management workflows.

DropshipHub | **Founder & Developer • 2026–Present**
Building a dropshipping-focused digital platform covering product research, product analysis, profit calculation, inventory/order workflows, analytics, and online-seller business tools.

Independent Songwriter & Lyricist | **2025–Present**
Create original lyrics and song concepts across different styles, combining storytelling, emotion, rhythm, memorable hooks, music production, and AI-assisted creative workflows.
